IN MEMORIAM:
McFADDEN —In loving memory of our dear Mother, Lucy Ann McFadden, who passed away four years ago today, September 24, 1946.

In the book of life there are memories
Of the happiest moments we've known;
And the record of love is a blessing
Of a wonderful mother, our own.

You are gone, but the treasures you left us,
Are surely a value untold.
A life filled with deeds of kindness
And beauty of heart and soul.

Oh, mother, dear, we loved you,
And our hearts ache for you still;
We couldn't forget you, mother,
And we never will.

Her life still shines before us,
As we follow the path she trod;
And we know if we follow her foot steps
They will lead us home safely to God.

—Mrs. Orville Gunter,
Brothers and Sisters.

Salesman Wanted: You are looking for larger income. A Rawleigh business is available for you if you can qualify. A postal card request will bring you full details without obligation. You then study and decide. Write Rawleigh's, Dept. VAI-510-222, Richmond, Va.

Great Lessons from the Good Book ...
IN "THE Bible SPEAKS" ...this paper has it!

White House Reinforced With Steel Skeleton

WASHINGTON—One day during the Christmas holidays, 1947, the 210-pound butler at the White House walked across the second floor study and produced an "over the waves" sensation and tinkling of the chandelier in the Blue room directly below.

That was the first indication that old age was creeping up on the historic structure and it was time to call in the experts.

A problem presented itself. To build a strong modern structure within the walls of the old which was first occupied by John and Abigail Adams in 1800. There were proposals to tear down the entire building and put up a brand new, more modern home for the president.

But the people of the country would not stand for this and the decision was made to spend 5.4 million dollars on rebuilding within the old shell.

Delicate Operation

The work of tearing down the interior is finally finished and the job of rebuilding has begun. The reconstruction job should be finished sometime in October 1951.

Preserving the outer wall of the White House has been a delicate operation. To keep the stone outer wall and the roof it has been necessary to plan a strong steel frame, with new inner walls and floors. Workmen dug 25 feet below the surface to find a solid gravel footing and then built 120 concrete piers to support the outer wall.

Steel H columns resting on separate footings will support the floor beams and the base of the roof trusses. Heavy anchor bars will tie the steel columns to the stone wall. When this job is done the president's butler, no matter how heavy he is, will be unable to make the chandeliers tinkle merely by walking across the floor above.

New Features Added

Although there will be no changes made in the historical rooms, and they will have the same locations and appearances as before, the White House will not be put back together exactly as it was. The building will have three new features—a two level basement, a grand stairway and a modernized third floor.

The two story basement will provide additional space since the height of the White House cannot be changed. There will be offices for a doctor and a dentist, and a room for a barber. The basement also will house a heating system and air conditioning machinery, and will provide needed storage space.

Most striking change will be the new grand stairway—a dignified, winding, open stairway from the second to the first floor. The old stairway was enclosed.. In former days, when cabinet members and their wives marched down the stairs at formal receptions while the red coated marine band played the Blue Danube waltz, they would not be seen except at the bottom two steps.

The new third floor was an attic until 1927. Now this floor will have eight guest rooms with baths, all decorated in the same style as the second floor bedrooms.

Pilgrim's Progress Heads List of Most Boring Books

NEW YORK—The Columbia University Press held a poll to determine the 10 books readers considered the most boring and came up with some surprising answers.

Nearly all of the first ten were required reading in high school. Some still are. John Bunyan's "Pilgrim's Progress" took the doubtful honor of first place. These round out the first 10 in the unpopularity contest:

"Melville's "Moby Dick," Milton's "Paradise Lost," Spencer's "Faerie Queene," Boswell's "Life of Samuel Johnson," Richardson's "Pamela," Eliot's "Silas Marner," Scott's "Ivanhoe," Cervantes' "Don Quixote" and Goethe's "Faust."

Shakespeare led the field with 17 of his 37 plays gaining mention at least once. However, only one, "As You Like It," ranked as high as 41st place.

The balloting cited works ranging from the Old Testament to Dr. Alfred C. Kinsey's "Sexual Behavior in the Human Male" as at once classic and tedious.

Russians Charge Americans Preparing Bacterial War

LONDON—The Soviet Union, just recovering from the famous potato bug scare, has charged that "American militarists are actively preparing bacterial war."

The United States was accused early this year of dropping potato bugs on East Germany in an effort to destroy the potato crop.

Now the Moscow radio charges:

"At the beginning of 1946 eighteen Japanese specialists were sent to the United States—bacteriologists who handed over to their new masters all their material on the production of the bacterial weapon.

The broadcast said recent laboratories in Maryland and Utah were working on the weapon.

HEAR YE! HEAR YE!

Appomattox High School will have homecoming day Oct. 13. The students would appreciate the full cooperation of each business place. Sponsors for floats are desired.

Miss Barbara Carter has further information on the program.

Dogs Can Have Hay Fever Mineapaer, Doctor Says

COLUMBUS, O.—Maybe that sniffle that Rover has developed is hay fever. Dr. Fred Wittich of Minneapolis says it could be.

Dogs can also be allergic to metallic cooking utensils, house dust, orris root in face powder, several types of prepared dog food eggs and pine pollen, the doctor says.

They can be treated the same way as in humans. He said he first offered evidence of canine hay fever in 1941. Later reports sustain his observations, he said.

Lion, Veteran of 500 Films, Earns $4C0 a Day

THOUSAND OAKS, Calif.—If you have a desire to wrestle a lion, tiger or panther, there are three such animals in this county that can safely be shoved around—so says their trainer.

At the Jungle Compound in California there are 60 lions, 12 tigers, 12 leopards, 15 cougers, 5 black panthers and associated other wild animals.

The owners are zoo man Billy Richards and Trader Horn who depend on their bread and butter from earnings of their trained animals appearing in movies.

For instance, a lion by the name of Jackie, is a $400 a day veteran of 500 films.

Skeptical film fans shout "fake" when the hero tangles with a jungle cat. But the animals are real—and rare. There is only one of each type trained well enough to wrestle.

"If you see a man wrestle with a lion on the screen, the lion is Jackie. If it's a tiger, it's Satan. A leopard, Bongo. A black panther, Dynamite," Richards said.

Only one trainer, Melvin Koontz does the rough stuff with the cats. He has doubled for most of the stars in Hollywood. The big cats are safe enough for actors to touch gently. But Koontz is always standing by, just out of camera range.

Richards supplied the first animal to appear in movies in 1910 when he was with the Al G. Barnes circus.

11-Year-Old Girl Sold To Become Child Bride

NATHANYA, Israel—An 11-year-old Yemenite girl won a divorce from her 46-year-old husband when she told a rabbinical court she had been sold for 56 cents to become a child bride.

The child said her love couldn't be bought. She tried to kill herself. She ran away from her husband. He traced her to an immigrant camp near Nathanya.

The girl appealed to camp authorities, saying she was a child and wanted to go to school. The court agreed and gave her the divorce.

Israel authorities reported many Yemenite immigrants have child brides.

Thieves Raid Prison Farms Escape With 20 Pullets

JACKSON, Mich. — Chicken thieves made a raid on, of all places, Southern Michigan Prison.

An inmate guard on the prison farm noticed a light was out in the chicken house. So he went to replace it and surprised two men busily stuffing chickens into a sack.

The unarmed guard got two black eyes; the thieves got 20 pullets—and away.

...g Production ...ntinues High

...production in Virginia continues at record levels in August, ...e total eggs produced and ...e per hen, says D. U. Livermon, poultry marketing specialist ...P. I.

...e USDA figures, Livermore ...ow that production was up 6 ...nt over August, 1949, and ...ost the 44,000,000 egg record ...gust, 1955. Production per ...13.2 eggs was up 4 per cent ...e year, and fell just short ...previous high of 13.33 eggs ...ed in August, 1948.

...e country as a whole, farm ...made a new record for the ...3 per cent above last year ...9 per cent above the 1939-...erage.

...ge egg prices in Virginia ...ged 43.4 cents—about 5 cents ...e higher than in July. How...e relatively unfavorable po...sition of the egg producer continued. Prices averaged 20 per cent below last year, while feed costs averaged 4 per cent higher for laying mash and 9 per cent higher for scratch grain

The resulting egg-feed ratio for August was about as unfavorable as it has been in recent months. A dozen eggs would buy 10.1 pounds of feed compared to 14.6 pounds a year ago.

Fertilize Small Fruits

September fertilization for Virginia's small fruit plantings has been advised by Bruce Arolan, associate Extension horticulturist at V. P. I.

Fruit buds for next year's crop are forming now, he explains, and plant food supplied by the fertilizer is used for bud development as well as for storage in the roots.

Apply regular garden fertilizer, such as 5-10-5, 4-12-4, or 3-8-6, at the rate of 5 to 8 pounds to each 150-foot row of small fruits during the last two weeks in September, he advises.

MISNOMER FOR APPLES IS COSTLY ERROR

It's "Stayman," not "Stayman-Winesap."

Fred Dreiling, associate Extension horticulturist at V. P. I., warns that fruit growers who ill-advisedly mark fruit "Stayman-Winesap" are making a costly error.

Dreiling says the two varieties—Stayman and Winesap—are entirely different. Stayman is an early and mid-winter variety, and Winesap is late winter and spring. A confused retailer who stocks Stayman for March or April sale usually will pay with apples that scald quickly when warm air hits them out of storage. On the other hand, if Winesaps are stocked, apple sales can be continued into warm weather.

WHAT'S BEHIND THIS AWARD ?

EDWARD H. HARRIMAN MEMORIAL MEDAL
AWARDED BY THE AMERICAN MUSEUM OF SAFETY
NORFOLK AND WESTERN RAILWAY COMPANY · CLASS A RAILROAD
FOR THE FIFTH TIME,* THE NORFOLK AND WESTERN RAILWAY HAS WON THE HARRIMAN MEMORIAL GOLD MEDAL . . . THE HIGHEST HONOR IN RAILROAD SAFETY. WHAT'S BEHIND THIS RECORD? WHAT'S THE STORY THAT CAN BE READ BETWEEN THE LINES?

The Norfolk and Western didn't "just happen" to win this great national honor for making the best safety record among the large Class A railroads of the United States in 1949 — because safety doesn't "just happen" anywhere.

This achievement was in the making many years ago when the N. & W. began *studying* safety intensively . . . *teaching* it scientifically . . . "living, sleeping and breathing" safety so that it could be *practiced* for the welfare of its employees, its passengers, its shippers.

It is a story of searching ahead for ever-better and safer operating methods. It is a story of operating with constantly improved, safer facilities . . . of willingness through the years to spend hundreds of millions of dollars for an increasingly efficient, *safer* railroad plant.

It is a story of dependable, level-headed employees who cooperate with each other and with the management . . . employees faithful to the purpose of serving the railroads' passengers and shippers to the best of their ability . . . skilled workers who know that *safety is the first law of good railroading.*

The Norfolk and Western and the Norfolk and Western Family are proud of their safety records. But they will not rest on their laurels. As long as the N. & W. operates, this railroad and its employees will continue to "live, sleep and breathe" safety for the welfare of those it serves and for themselves.

* The N. & W. has been awarded the coveted Harriman Memorial Gold Medal, for the outstanding safety records among Class A railroads for the years 1949, 1947, 1940, 1938 and 1926.

During the twelve years, 1938-1949, inclusive, the N. & W. carried 32,879,700 passengers a total of 4,597,621,431 passenger miles without a single fatality to a passenger in a train accident. In employee safety, during the same period, the casualty rate was 4.27 per million man-hours worked, which was 58% below the national average. Since 1913, when a planned safety program was started, progress in accident prevention on the N. & W. has resulted in saving 1,269 employees' lives and the prevention of 50,745 employee injuries.

Norfolk and Western Railway
